

## 5-110.01 Edge Sealing Profiles EPDM

### Advantages

- Basic door profiles for lids, doors and paneling, made of EPDM.
- Simple fitting: these profiles are simply pushed onto sheet metal edges. If necessary profiles have to be glued.
- No radius or mitering necessary: no warping or folds.
- **Tested according to UL 157 and UL 50 E.**

### Materials

- **Sealing Profile:** EPDM

### Remarks

Note Tolerances!

## Edge Sealing Profiles

|    | Part Number       | Material | Colour | Width W | Height H | Packaging unit |
|----|-------------------|----------|--------|---------|----------|----------------|
| a) | 209-0301.00-00000 | EPDM     | black  | 6,0 mm  | 10,0 mm  | 50,0 m         |
| b) | 209-0302.00-00000 | EPDM     | black  | 6,8 mm  | 15,0 mm  | 50,0 m         |
| c) | 209-0307.00-00000 | EPDM     | black  | 5,4 mm  | 8,5 mm   | 50,0 m         |
